Abdullah Shaikh

Full Stack Agentic AI Developer

Karachi, Pakistan | abdullahkamran6601@gmail.com | abdullah-shaikh-6601.vercel.app
linkedin.com/in/abdullah-shaikh-29699b302 | github.com/abdullahsheikh01 | x.com/abdullahsh6601

SUMMARY

Full-stack developer who designs and ships AI agent systems end to end: multi-agent backends with streaming LLM output, MCP integrations, autonomous agentic loops, and production Next.js frontends. Experience building AI features for live products, plus 70+ public repositories spanning Python, TypeScript and agentic AI.

SKILLS

Agentic AI: OpenAI Agents SDK (multi-agent routing, structured outputs, streaming), MCP servers, Claude Code, opencode, agentic loops, prompt & context engineering, spec-driven development

Backend: Python, FastAPI, SSE streaming, SQLite, Neon Postgres, REST APIs

Frontend: TypeScript, JavaScript, Next.js, React, Tailwind CSS, Sanity CMS, Chainlit, Streamlit

DevOps & Tools: Docker, Docker Compose, Kubernetes (Minikube, Helm), Bash, Cron, Git/GitHub, Vercel, Playwright, Figma

EXPERIENCE

AI Developer — AgentraX

- Built and shipped AI features for live, customer-facing products.

Founder & Developer — Independent agentic AI product (2026 – Present)

- Building an agentic AI tool for external clients as a solo developer, from architecture to deployment.

PROJECTS

Teacher Notes Agent Next.js, TypeScript, FastAPI, OpenAI Agents SDK, SQLite · Live

- Full-stack AI app where teachers generate, organize, summarize and plan lessons through 5 skill-based agents with real-time SSE streaming.
- FastAPI backend deployed on FastAPI Cloud with structured outputs, file parsing and saved-notes history.

Personal AI Employee — Digital FTE Python, Claude Code, Gmail MCP, Playwright, Obsidian

- Local-first autonomous agent that triages Gmail, drafts replies and posts to LinkedIn via file-system watchers and an orchestrator.
- Human-in-the-loop approval for every external action, with a live Obsidian dashboard and JSON audit logs.

Panaversity Exam Practice Next.js, FastAPI, Neon Postgres, OpenAI Agents SDK

- Quiz platform where authors upload files that an agent extracts into questions, with author auth and an admin approval dashboard.

Agentic Loop Engineering & **opencode Loop Skill** opencode, Bash, Cron, Docker

- Unattended loops that fix failing pytest suites, watch long-running scripts and publish a daily tech brief with memory, driven by decision tokens.
- Packaged the pattern as a reusable open-source agent skill; built a Docker Watchdog CLI that monitors container health every 3 minutes.

Todo App — Spec-Driven Cloud Native AI Next.js, FastAPI, Neon, MCP, Kubernetes

- 5-phase build from a Python console app to an AI chatbot (Agents SDK + MCP), deployed locally via Minikube/Helm with Kafka and Dapr.

EDUCATION & CERTIFICATIONS

- **Cloud Native Agentic AI Engineering** — Governor Sindh Initiative for AI & Computing (GIAIC), Karachi (Feb 2024 – Present)
- **Matriculation** — SMIU Model School, Karachi
- **In progress:** Claude Certified Architect – Foundations; Panaversity Certified Associate – Foundations
